COMMENTS INVITED ON IP COMMUNICATIONS, L.P. APPLICATION TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

Comp. Pol. File No. 605

Comments Due: October 4, 2002

Section 214 Application

Applicant: IP Communications L.P.

On **August 28, 2002**, **IP Communications L.P.** (IP or Applicant) located at **17300 Preston Road, Suite 300, Austin, TX 75252** filed an application with the Federal Communications Commission (FCC or Commission), requesting authority under section 214(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 214(a), and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of digital subscriber line (DSL) service in selected central offices within four states.

The application indicates that IP proposes to discontinue providing DSL services on October 15, 2002, to select central offices in the following states: Kansas, Missouri, Oklahoma, and Texas. IP clarifies that they will not be shutting down service on a state-wide basis in any state. IP states that these selected central offices account for less than 3.1% of IP's existing DSL lines. IP's DSL service is used for high-speed Internet access, and is provided to wholesale customers that are Internet Service Providers (ISP), as well as to end-user retail customers. IP's application indicates that it provided written customer notice on or before August 28, 2002. Direct notice was provided to IP's customers of record. For its wholesale ISP customers, IP has committed to assist the ISP with the customer conversion process. It states that it will work with the ISP to help assure that end users receive specific notice if service through the ISP will be disconnected when a conversion to another provider through the ISP is not possible. IP has provided customer contact information to assist customers in their attempt to identify alternative providers, if any, that would be able to provide comparable service in a manner that would avoid, or at least minimize, service disruption and inconvenience.

In accordance with 47 C.F.R. § 63.71(c), the application will be deemed to be automatically granted on the thirty-first (31st) day after the release date of this notice, unless the Commission has notified Applicant that the grant will not be automatically effective. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a “permit but disclose” proceeding for purposes of the Commission's *ex parte* rules.¹ Pursuant to Sections 1.415 and 1.419 of the Commission's rules, 47 C.F.R. §§ 1.415, 1.419, interested parties may file comments on or before **October 4, 2002**. Such comments should refer to **Comp. Pol. File No. 605**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service. The original and four (4) copies of the comments should be sent to the Office of the Secretary, Federal Communications Commission, 445 12th Street, SW, Room TW-A325, Washington, DC 20554.
